Github

[**Link to the Team's Github Repository**](#)
[**Link to the Code for the Team's Public Landing Page**](#)
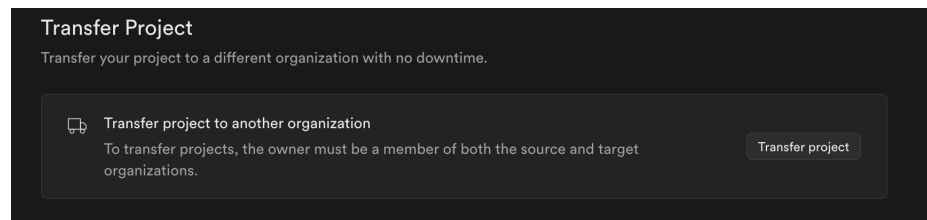

1. Make a github account
   a. https://github.com/
   b. Feel free to make the account now or wait for our meeting on Tuesday!
   c. Once you make an account, you can share your username with us and we will give you admin access to the repository, the landing page, and the team's project board.
2. For Next Year
   a. Next year's team can fork the existing github repository and start working from there. They can find information about our project in the docs folder.

Deployment (Vercel)

1. Here is the link to the test deployment used at the Bend conference (not attached to the github repo): https://capstone-deployment-test-topaz.vercel.app/
2. Here is the link to the deployment that is attached to the github repository: https://healthy-games-for-healthy-people-and-healthy-planet-27kqa2850.vercel.app/
   a. This deployment is attached to Emma's Vercel account. Next year, the new team may want to deploy on Oregon State's servers and would no longer need this deployment. However, if they want to keep the deployment on Vercel, a new team member can make an account and deploy it. Emma cannot add team members to the project without signing up for a monthly Vercel subscription.

Supabase

1. Make a Supabase account
   a. https://supabase.com/dashboard/sign-up
   b. Feel free to also make now or wait for Tuesday :)
   c. Once an account is made, we can give you administrative privileges with our supabase - (Link here)

   d.

Project Archive
1. Box Folder: https://oregonstate.box.com/s/8r8e7mtne52p37rft7g5vs1xxbwdss8b
   a. Ownership of the Box folder will be transferred to the Project Partner immediately after the Project Archive assignment is completed.
